Re: Verification of Online Testimonials

We have previously undertaken inspections of client testimonials as detailed in our letters of 17th November 2009, 1st November 2010 and 5th October 2012.

We have been presented with an additional bundle of one hundred and thirty two separate client testimonials for review ranging in date from October 2012 to January 2016. The testimonials are from ex and current clients who have received treatment for various addictions and dependency upon nicotine, alcohol and drugs during this time period. The testimonials come from a variety of sources including emails, handwritten notes, letters and greetings cards, together with the clinics' feedback forms.

We have inspected the original copies of each of testimonials and we are satisfied that the testimonials that we have examined are from a variety of different sources. We have compared the original testimonials to copies that had been produced for our use. We confirm that the copy testimonials provided to us were genuine copies of the originals.

We then compared the testimonials against the online text of the client testimonials contained within the website. The testimonials contained on the website are an accurate representation of the comments made by the clinics' clients in the testimonials that we have reviewed.

Based upon the above we are happy to confirm that these are genuine testimonials.

Yours faithfully

Pearson Solicitor
