Dear Sirs,

We refer to the Testimonial File which has recently been produced to us in respect of Patients treated for smoking alcohol and drug dependency. These contain Testimonials given in various forms including e-mails, feedback forms and handwritten letters and cover a period of approximately 4 ½ years.

Feedback has been given over a variety of periods from shortly after the patient undergoing treatment up until a number of years thereafter and is from people who consider the treatment as beneficial.

In our opinion these testimonials appear to be genuine.

Yours faithfully,

AST HAMPSONS
