To whom it may concern

Dear Sirs

Re: Verification of Testimonials

We have previously undertaken inspections of our client's testimonials as detailed in our letters of 17 November 2009, 1 November 2010, 5 October 2012 and 21 February 2016.

We have been presented with an additional bundle of ninety-nine separate client testimonials ranging in date from 4 November 2016 to 12 March 2019. The testimonials are from ex and current clients who have received treatment for various addictions and dependency upon alcohol, cocaine, crack, heroin, methadone, prescription drugs, nicotine and mental health during this time period. The testimonials come from a variety of sources including emails, handwritten notes, letters and greeting cards, together with the clinic's feedback forms.

We have inspected the original copies of each of the testimonials and we are satisfied that the testimonials are from a variety of different sources. We have compared the original testimonials to copies that have been produced for our use. We confirm that the copy testimonials provided to us were genuine copies of the originals.

We then compared testimonials against online text of client testimonials contained within the website. The testimonials contained on the website are an accurate representation of the comments made by the clinics' clients in the testimonials that we have reviewed.

Based upon the above we are happy to confirm that these are genuine testimonials.

Yours faithfully
